Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance:

With reference to claim 1, the prior art of record does not disclose or clearly suggest a tool for inspecting and gauging the accuracy of an installed steel door frame structure having means for gauging the true status of a frame in relation to three dimensional space and the tool having means for storing the plumb bob within the tool, in combination with the remaining limitations in the claims.

With reference to claims 6-16, the prior art of record does not disclose or clearly suggest a tool for inspecting the accuracy of installed frames comprising a first and second flange extending from the base spaced apart from each other, wherein the tool cooperates with a plumb bob and a string received in the aperture to gauge the accuracy and the true status of an installed door in relation to three dimensional space, in combination with the remaining limitations in the claims.

Furthermore, it should be noted with respect to claims 6-16 that the plumb bob and string breath life and meaning to the claims and thus give patentable weight.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
